### They Will Not Recede.

### Transvaal Government Appointing Officers.

### Situation in South Africa Critical—Boers Looting the Frontier.

By Associated Press to the Journal.

LONDON, Sept. 27.—The Transvaal situation remains unchanged, though if anything the feeling of gloom has deepened.

Cablegrams from Pretoria and Cape Town show that the general impression prevails that Boers will not recede from their position and that feeling of unrest at Pretoria has been intensified.

The dispatch today announces that the Transvaal government has begun to appoint officers to go to the front in case of hostilities. The executive council of the Transvaal has been in constant telegraphic communication with the Orange Free State.

No decision, it is now said, regarding the attitude of the Free State has yet been reached. Transvaal's reply to the dispatch of Chamberlain will be drafted today and submitted to the cabinet in secret session.

In spite of the warlike preparations, South African circles in London, still believe there will be no war and that the Boers will finally concede to the demands.

Begin Looting.

LONDON, Sept. 27.—The Cape Town correspondent of the Daily News says: The Boers have begun looting on the western border of the Transvaal. A house at Littenburg, belonging to a British subject, was looted in his absence, everything portable being carried off.

### FOUND DEAD AT NEW ERA.

OREGON CITY, Sept. 27.—Claude Williams was found dead by the side of the railroad track at New Era this morning. He boarded the train last night to beat his way to Eugene.

### SOUX INDIANS GREATLY EXCITED.

By Associated Press to the Journal.  
OMAHA, Sept. 27.—A special to the Bee, from Cheyenne Sioux agency, says that there is great excitement over the

murder of Long Haley, a Cheyenne river Soix, by Ruddy, a squaw man. At the funeral of Haley, which was conducted at the Catholic cemetery, White Swan, one of the principal chiefs, made an inflammatory speech, bitterly denouncing the white men for the treatment of the Indians. This stirred the Indians up more than ever. Inspector Tinker, the Indian bureau, and Farmers Lyons and Comstock are on the ground, supported by a force of Indian police, and are doing everything possible to quiet the Indians and maintain order.

### ROOT FAVORS PORTLAND.

### The Secretary's Final Decision in Portland's Favor.

By Associated Press to the Journal.

WASHINGTON, Sept. 27.—Secretary Root has overruled an attempt made through the quartermaster's department to prevent the Lennox from being fitted out for Manila at Portland. A dispatch was received from San Francisco saying that the Lennox could not be fitted out at Portland without a great deal of additional expense; that it would be impossible to send men there who understand what is needed; that men could not be spared, and several other minor suggestions were made. This dispatch was taken to Secretary Root, and, after considering everything, he adhered to his determination to have the Lennox fitted at Portland. To each of the bureaucratic objections he interposed the cool determination of a business man who did not see impossibilities in every little thing brought up, and said that none of the obstacles raised were of importance. He said that the trivial questions which the San Francisco men were raising were intended only to prevent any business from being done with the government transports at Portland, and he did not intend to be used for any such purpose. The late decision settles the matter, and even the quartermasters have given up their fight and acknowledge defeat.

By Associated Press to the Journal.

New York, Sept. 27.—Admiral Dewey rose early today and could be seen from the Atlantic highlands pacing the Olympia's quarterdeck. An outward bound British steamer saluted as she passed. A string of signal flags were sent aloft in response. An official visit was paid Dewey by Major Burbank and staff, commander of Fort Hancock. At 9 o'clock the Olympia started up the bay for government anchorage, off Tompkinsville. The progress of the procession was triumphant, all sorts of crafts, including the dispatch boat Dolphin, with Assistant Secretary of the Navy Allen on board accompanying the Olympia.

It is explained today that while Dewey and Rear Admiral Howison both outrank Rear Admiral Sampson, there would be no change in the arrangements, giving Sampson full control of the naval portion of the demonstration in Dewey's honor.

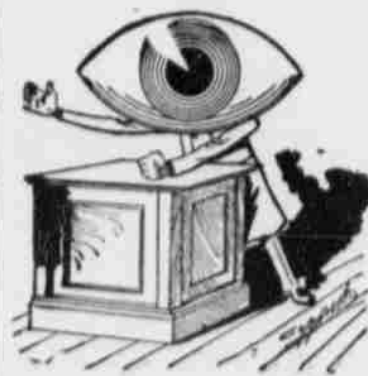

### NOT COMING TO OREGON.

Howison Arrived.

WASHINGTON, Sept. 27.—President McKinley has decided to leave on his Western trip, October 4. The president will be accompanied by Mrs. McKinley and the members of his cabinet. They will leave on October 4, the morning after the dinner at the white house, and will be gone about two weeks. They go first to Galesburg, Ill., thence to Chicago and on to St. Paul, Sioux City and Aberdeen, S. D.

A little later the cruiser joined Sampson's fleet off Tompkinsville, which thundered out a welcome to the commander-in-chief.

### ADMIRAL DEWEY LEVEL HEADED

In an interview in the New York Evening Post among other things Dewey says:

"I thought that this thing in the Philippines would be over long before this, as it should have been. I cannot imagine how they have stood so long now. Of course, there was the rainy season, and I suppose little was done. One great trouble out there has been that General Otis has tried to do too much. I told him so. He wants to be general, governor, judge and everything else, to have hold of all the reins. No man can do that. This is the great trouble. It is enough for a man to do one thing, to be one thing; but when a man tries to do everything and be everything, it is easy to imagine the result. The fight in the Philippines should be easily ended. The people have been so badly treated for such a length of time by the Spaniards that they are distrustful. This is the great difficulty in dealing with them. Where we have met them and they have been in such contact with us as to learn that we mean to treat them well, where they have seen that we mean what we say, there is no trouble. They stand by us all the time. All of them will learn this in time. They will get from under the influence of Aguinaldo, or rather those people who are behind Aguinaldo, who, as I said before, is a mere tool."

### THE ADMIRAL'S SALUTE.

Salem to Pay Honors to Dewey in Good Style.

The State military department had a brass cannon sent to Salem, in charge of Lieut. Strain of the Oregon battery, to be fired the moment the word is received from New York. It is not probable that any other program will be indulged in.

### SHOOTING AT SILVERTON

### Dr. J. W. Welch Interferes In a Family Row.

By Associated Press to the Journal.

SILVERTON, Or., Sept. 27.—In a squabble between Dr. J. W. Welch and W. R. Smith yesterday, the latter was shot through the left hand. He made complaint against Welch, who will appear for a hearing today.

When Welch, who is a young dentist, went home to dinner, he found Smith the center of a considerable commotion, of which several women seemed to be part. It is said the trouble started from Smith's insisting on taking his little daughter from the family home in town to his ranch, up the creek, his wife opposing such action. At any rate Welch tried to quiet Smith, who resented the interference. Welch sent his little brother for his revolver, and when it brought him Smith had hold of Welch's mother. Welch sought to make Smith release his hold, and Smith sprang for the revolver, and in the struggle the weapon was discharged.

Smith figured in the affair in which Coolidge was killed in Coos county, a few years ago. Smith then received a wound in the thigh, from which he has not yet fully recovered.

### The Alaska Earthquake.

SAN FRANCISCO, Sept. 27.—The earthquakes which shook up the Alaskan coast early in September made themselves felt miles at sea. Three vessels which have arrived from the northern salmon fisheries report experiencing most peculiar weather on Sunday, September 3, the day of the first earthquake.

Captain Charles Johnson, of the bark B. P. Cheney, which was at sea almost opposite Kodiak at the time of the disturbance, states that on September 3 a heavy gale sprang up, the air being very sultry. The barometer fell rapidly, but in 15 minutes the wind fell and the sea quieted down.

Captain Thompson, of the bark Nichol, also Thayer from Alaska, also noted the peculiar climatic conditions on September 3. The L. J. Morse was likewise caught in the gale which followed the upheaval along the north coast.

The San Francisco & Sitka Lumber Co. has just completed a first-class saw-mill at Ancho, with a sawing capacity of 50,000 feet per day, says the Eugene Register.

Mr. F. Patterson, out at the stone quarry three miles south of Dallas, has some men under him getting out stone for the new Polk court house at Dallas.

Grip is slaying thousands of victims. Dr. Miles' Nerveine is curing thousands.

### SHOCKING TRAGEDY.

### A Mother Drowns Two Children and Herself.

By Associated Press to the Journal.

THE DALLAS, Or., Sept. 27.—News was received by the county officials here of a shocking tragedy which occurred near the free bridge Monday afternoon, when Mrs. W. T. Gytton drowned herself and her two children—a boy of 4 years, and a girl of 1½ years—in the Deschutes river. No particulars have yet known as to what caused the terrible deed excepting a report that a family jar in the morning led the unfortunate woman to end her own and her children's lives. Their bodies were recovered this morning. Gytton formerly owned a farm near The Dalles, and was married here five years ago, since which time he has been a rancher in Sherman county. His wife was a native of Grass Valley.

J. H. Peterson, of Rainier, was in town last Sunday and closed the negotiations for the purchase of Henry Miller's logging camp and outfit, says the Cashnet (Tacoma). It is Mr. Peterson's intention to put in an iron tram road at once, laying the iron on top of the skids and thoroughly planking the entire road, so that it can be used in the winter. Three donkey engines and new camp buildings will be erected at once. It is the intention to work from 60 to 80 men steadily.
